TARGET AUDIENCE
This program is designed for ophthalmologists, ophthalmology residents, medical students, and ophthalmic technicians in the New York metropolitan area.

PURPOSE
This year’s program features the most current concepts and practical tips for clinical practice in HZV, Retina, Glaucoma, Oculoplastics and Cataract/IOLs, and Neuro-ophthalmology. In addition, we offer innovative lectures on managing complicated surgical cases as well as treatment modalities. This is a timely and relevant program addressing the key issues in research and patient care.

OBJECTIVES:
After participating in this activity, clinicians should be able to:
1. Perform cataract surgery better
2. Make better treatment decisions regarding patients with HZO
3. Perform basic eyelid procedures on their patients
